THE NEW MEXICO DIAMOND DRILL CO.

This Company has acquired the exclusive right to use and sell, and license others to use their improved DIAMOND ROCK-BORING machinery within the Territory of New Mexico with the exception of Grant county.

By the use of these drills only can mines or leads be penetrated to a depth of one thousand feet or upwards through solid rock, vertically or horizontally, and

Perfect Samples of Mineral
Taken out the entire distance. These samples are not disintegrated fragments of rock but continuous solid cylinders, showing clearly the stratification and character of the material bored through. The great value of these drills, and this method of prospecting is obvious and must appear.

THE NEW MEXICO DIAMOND DRILL CO.
Are now prepared to prospect Leads or Mines to 1,000 feet or upwards at prices much less than the cost of sinking a shaft, or for a share in the claim or mines so prospect.

THE CURRENCY QUESTION.
Notwithstanding the fact that thousands of our people are at present worrying themselves as to the death of the currency question, even to the extent of neglecting their business, there are still thousands upon thousands of smart, hard working, intelligent men pouring into the great Arkansas Valley, the Garden of the West, where the Atchison, Topeka & Santa Fe Railroad of them their choice of 2,500,000 acres of the finest farming lands in the world at almost their own prices. If you do not believe it, write to the undersigned, who will tell you where you can get a cheap land exploring ticket, and how at a moderate expense, you can see for yourself and be convinced.

INUNDATED.

Waterloo, Iowa, July 12.—Yesterday the dry run, close to this city, became suddenly flooded by a heavy rain which had been general in this section, and the first and second wards were speedily under water, dwelling houses and all kinds of property were greatly in danger. The fire department worked heroically in rescuing property and saving life. The track of the Burlington, Cedar Rapids and Northern, was three feet under water for a distance of five hundred feet. The water was nine inches deep on the floor of the Congregational Church, and three feet deep on the Opera House floor. The waters subsided nearly as suddenly as it came. Two boys, Fred Seeberting and young Moring and a girl whose name is unknown, were drowned. The damage to city property is \$25,000. Reports from neighboring villages state great damage, also being sustained there on account of the weather and floods.

Chicago, July 12.—The Tribune says the crop report received by telegram, and given in our columns, are conflicting in character, and vary according to different localities from which they are received. In general, however, the showing is not so favorable for the wheat harvest as a few days ago. Urgent appeals for money were made by the Washington Gazette for Bourbon, which solicits contributions averaging five dollars each, from three hundred thousand ex-confederate soldiers, and an equal amount from the democratic soldiers who fought on the other side. In this way it is expected that about \$300,000 can be raised for campaign purposes. It is stated in the Washington dispatches that the documents are now in course of preparation and will be published effectually to prove the truth of the statement that Hancock entered into the conspiracy with John Porter and other democrats in general to resist the removal of McClellan from the command of the army of the Potomac, and to depress President Lincoln and Secretary Stanton.

Chicago, July 12.—The weather for the past four days has been unusually warm, the thermometer registering daily about ninety degrees. To-day it appears to be the warmest of the season, and an occasional cooling breeze alone prevents the recurrence of numerous sun strokes, which characterized the heated season of two years ago. So far only six cases of sun strokes have been reported, and but two of them were fatal. Comparatively cool nights have prevented the usual serious consequences of prolonged heats.

THE EASTERN WAR.
Cabal, July 12.—The British Commissioner received a letter from Abdurrahman Khan Friday last, expressing a strong desire for a formal settlement. Abdurrahman has with him less than a thousand troops, and six guns; and the chiefs and soldiers of Legan Landilivare are against Abdurrahman. Ayrabkhan has plenty of ammunition, except gun caps, of which several millions which were sent from Mished were recently seized by person authorities.

Chicago, July 12.—Rev. T. De Witt Talmage will pass his vacation in Colorado.

London, July 12.—In the House of Commons, Gladstone, moved that Wednesdays and part of Tuesdays sittings, which had heretofore been devoted to private business, be for the rest of the session surrendered to the government. This will leave for private business only the evening session of Fridays. Gladstone said that the Government intended to confine themselves in regard to the ballot to a simple continuance of the existing act as abandoning the first, and that Borough's bills be preserved, and he hoped, there be no use for the Parliament to sit into the month of September, and he thought that the necessary business could be finished before the last week in August. Gladstone moved that the notice of the amendment to Forsters compensation for disturbance in the Ireland bill so that the last clause will read as follows: "And tenant shall be entitled to a compensation in discretion of the county court the judge, if unpaid of rent is caused by prevailing distress and tenant is willing to continue in occupation on reasonable terms, and to rent arrears of rent and otherwise, and if such terms are refused by land lords, without reasonable alternation."

Sir Chas. E. Dilke, under a formal secretary stated that information had been received from the Bulgarian Government that it does not regard the disturbance of peace as probable. The objects of the union of Bulgaria with the eastern fiat being applied for to carry an appeal in the Tichborne claim and the case has been taken to the house of Lords.

New York, July 12.—Beecher yesterday in his sermon bidding his congregation farewell before leaving for the White Mountains, denied the story of the New York papers that he had abandoned the orthodox faith, and announced himself as a believer in inspiration of the bible and accepted the doctrines of trinity and the atonement, and said that from out of the sublimity and purities of mediæval and modern theologians. I believe in sublime simplicity of the apostles creed; which he repeated to his congregation. If I am a heretic I am a heretic after the pattern of the early church.

London, July 12.—It is said that the chief subject for consideration at Saturday's cabinet counsel was the Irish compensation bill. The general impression is that the bill will not become a law. The report that the Earl of Kilmore and Lord Chamberlain, have intimated a wish to resign in consequence of the question to the conspircation of the bill is unfounded. The representatives of the Rutchers, in the northern counties, are to have an interview with Lord Prout, of the council, in reference to the advantage arising from foreign arrivals at Birkhead and elsewhere.

Byers, Colo., July 12.—The parties injured in the fracas here last night are all still alive. Frank McCracken, the station agent, is resting well at present and the Doctor does not consider him in immediate danger though he cannot tell yet the exact injury received. John McGlyan was taken to Denver on this evening's train, and is injured, perhaps, fatally. An inquest was held on the body of the tramp who did the cutting this morning and the verdict of justifiable homicide was returned.

Paris, July 12.—The national fete has virtually begun. The exterior quarters of Paris are already profusely decorated with banners and devices of various kinds. Pleasure fairs are organized in all open spaces and were in full swing last night. Many thousands of persons from provinces have already arrived and railways are bringing high accessions. The weather is magnificent.

Washington, July 12.—The President recognized O. J. B. Price, consul of Belgium at Green Bay, Wisconsin. The treasury department purchased United States bonds to the amount of \$237,600 for a sinking fund of the Union and Central Pacific railroads.

Philadelphia, July 12.—The surities of General Hartrahst were justified to-day and the General took the oath of office as collector of customs.

Washington, D. C., June 12.—Coinage has been resumed and all mints recently closed to make annual examination, except the Philadelphia mint where some repairs are being made.

St. Paul, Minn., July 12.—What is now disturbing the centers of the trade, on account of the failure of the wheat crop in the northwest are founded or facts; but the fact is exaggerated and distorted and it is difficult even to get the exact facts as to the condition of the crops in the midst of the rumors and interested perversions. Grain dealers claim that the crop is nearly ruined throughout the state. Minneapolis millers say that wheat has not suffered seriously in the region tributary to them.

Chicago, July 12.—The Times' Washington special gives a round about story, coming from Emporia, Kansas, which is in brief: That Gen. Grant, while there, said that the democrat had hit the nail squarely on the head in nominating Hancock, whose record he admitted as being good, and while he had nothing to say in the depreciation of Garfield, he thought, the candidate had to many voluminous in the congressional department behind him for smooth canvass.

Washington, D. C., July 12.—Admiral Aimmer and Blanchet, French engineers who have an interest in the Nicaragua canal, called upon the president to-day and addressed him upon the subject. The president in reply stated that he was aware of the conflict which was occasioned in congress and the partially shown, owing to special interests involved, but he looked upon the Nicaragua route as a most available one.

London, July 12.—Frank Hyde writes to the Colorado Bodines treating on American marksmen; he says they will be debarred from participating in any future internal match if they shoot in this; and he is even trying to prevent Dudley and Gerish, who came over especially for a match from participating. He even engaged passage for men to sail on the 21st ult. who have entered for individual interest after that day.

San Francisco, July 12.—M. Gardner, aged twelve and H. Fitz, aged eleven were found dead near Potter valley, Medicine county. One was shot through the head and the other through the heart. No quarrel is known to have existed between the boys, and it is believed to be a case of murder. A man's track were found in the vicinity. There is no other clue to the perpetrator of the deed.

Michigan City, Ind., July 12.—A fire in Haskell Baker's car companies lumber yard to-day, caused by a small boy's letting off fire crackers among the shavings, destroyed lumber to the amount of \$26,000 to \$30,000. Jas. McChels, who was fighting the fire was over come with heat and fatigue, and probably will not recover.

Washington, D. C., July 12.—Secretary Schurz says that the orders he issued to immediately employ all necessary military force to prevent any occupation of the Indian Territory by the Payne expedition, or any similar unlawful intruders.

Chicago, July 12.—A report has been received of heavy and damaging storms in Wisconsin and Michigan, although the injury has been confined chiefly to the crops which are represented as having suffered great injury in some sections of both states.

Chicago, July 12.—The Times says that the republican split in the first congressional district of Minnesota is generally deplored by the members of the party in that State.

Buchore, July 12.—Lieutenant Francis V. Green, of the United States Army, who was with Grand Duke Nicholas during the recent Turkish war, has been decorated with the order of Star of Roumens.

Toledo, Ohio, July 12.—Yesterday's Journal contained a special purporting to be Garfield's letter of acceptance; but which was forged.

New York, July 12.—The orange-men are observing the 12th of July, by an excursion up the Hudson.

New York, July 12.—Wm. H. English visited General Hancock yesterday.
